VS/2019/0034

In 2019/2020, the World Employment Confederation-Europe and UNI-Europa are conducting a joint project in cooperation with the Centre for European Policy Studies (CEPS) and the Catholic University of Leuven/HIVA on “Social Innovation in the temporary agency work industry”. The project forms part of the European Sectoral Social Dialogue on temporary agency work and is co-funded by the European Commission.

Social Innovation is the implementation of new solutions for working, learning and social protection for the benefits of workers, employers and society in general. Three main areas of social innovation are in the focus of the joint project, namely social innovation in the area of training, social innovation linked to working conditions for temporary agency workers and social innovation in the area of social protection. In a first phase of the project, case studies and examples of social innovation have been gathered based on an online survey among the World Employment Confederation-Europe members and UNI-Europa affiliates. In a second phase, these case studies and examples are presented and discussed with European and national experts in thematic workshops. The third workshop focuses on social innovation in the area of social protection.

The project will conclude in 2020 with a large, pan-European Conference to present and discuss social innovation in the temporary agency work industry and to put forward recommendations.

For questions on the thematic workshop or the project, please contact Dr. Michael Freytag, Public Affairs Manager at the World Employment Confederation-Europe ([michael.freytag@wecglobal.org](mailto:michael.freytag@wecglobal.org) / Tel. +32 2 421 1586).

Workshop participants are kindly requested to sign up via the zoom platform. In case you do not have a zoom account and prefer not to create one, please get in touch with Michael Freytag ([michael.freytag@wecglobal.org](mailto:michael.freytag@wecglobal.org)). Our lead interpreter will sign you up manually and provide you with the details to connect.
